Note: All courses in the major must have minimum grade of a C. The minimum GPA of 2.5 in the major is required for graduation.

Check Catalog for semester availability for all courses
¹The economics major is a popular dual major for students, particularly in the College of Business. For example, finance majors often choose economics as a second major due to complementarities in subject matter and degree requirements.
²The prelaw emphasis is popular as a dual major for students in political science or other programs outside of the College of Business.
