

Career Fair Follow-up Email

Mr. Ashton,

I am a Management Information Systems junior at Utah State and enjoyed meeting you at yesterday's STEM Fair. As we spoke about your needs and the attributes of your top interns, I recognized that my technical and soft skills might benefit Tecuity and its constituents.

As you will see in my attached resume, I have undertaken multiple personal and Business Intelligence Group (BiG) projects to provide clients with insights for better business decisions and also improve my R, Python, SQL, and Tableau skills in the process. I have a proven track record of increasing efficiency, improving results, and elevating people and I would like to offer the same to Tecuity—while also learning the ins and outs of how an innovative technology solutions company thrives.

Thank you for your time and consideration. May we schedule a time to further discuss the fit between my background and your needs? I look forward to hearing from you.

Best Regards,

Mikiko Reya
