

Email to Request Informational Interview

Mr. Sanders:

I am a Management Information Systems major and Computer Science minor at Utah State University and received your name and email address from Barbara Thompson, in the Huntsman School of Business.

I am currently researching several tech career pathways—including data analytics and web development—and would relish the chance to learn from your knowledge and insights as a current Google employee.

When it is convenient for you, would you have a few minutes for me to ask you some questions about how I can best prepare to make valuable contributions with a company like Google?

Thank you for considering my request.

Best Regards,

Garrett Smith
