

# Student Club Spotlight: Women in Business Association

05/11/2021

The [Women in Business Association \(WIBA\)](#) was established in the Huntsman School in 2012. WIBA is an organization that supports the personal and career development of women in business by connecting with fellow students, faculty, and alumni; building professional skills to increase competence and confidence; and providing meaningful opportunities to lead and serve. Each semester WIBA plans a series of events to engage and enlighten students anchored by the annual Fall Kickoff Event, [She's Daring Mighty Things Summit](#).

The Huntsman School provides students with the opportunity to get involved with one or more of the [20 business related student clubs](#) on the Logan Campus. Huntsman Student Clubs provide an opportunity for students to connect with other students who share similar interests, engage in activities that prepare them for future careers, receive mentorship from faculty and staff advisors, and connect with corporate professionals and recruiters.

## Meet Baylee Haws, Current WIBA President
