

Huntsman Students Shine in 2023 Domo Student Case Competition

01/03/2024

Huntsman Students won First and Second Place prizes in the 2023 Domo for Higher Education Student Case Competition. The competition provided a unique opportunity for teams to demonstrate their proficiency in leveraging Domo's solutions to address real-world challenges.

The winning team, consisting of Rylie, Brigham Cook, Christopher Harris, Oliver Heady, and Rylie Swanson, took first-place position with their innovative problem-solving and adept use of Domo's solutions. Huntsman Students also took home the second-place prize with the team comprising Avery Child, Jordan McGrath, and Ryan Cheney.

The Domo for Higher Education Student Case Competition not only celebrates the Huntsman School's excellence but also highlights the increasing importance of data-driven decision-making in the business landscape. Congratulations to both winning teams for their remarkable achievements, reflecting the bright future of business leaders emerging from the distinguished Huntsman School of Business.
