Why Utah State University for your MAcc?

The Master of Accounting degree at Utah State’s School of Accountancy builds on the undergraduate curriculum to provide students with an enhanced ability to research, analyze and communicate on accounting and taxation issues. It instills professional attitudes and values and prepares the students to join the ranks of the most trusted and recognized financial services profession in the world, ready to pass the CPA exam and enter the profession with technical skills, critical reasoning and professional judgment.

- **Ranked** in the top 50 graduate accounting programs in the U.S. by the Public Accounting Report
- **Placement** of virtually all MAcc graduates—Well over 90% have accepted employment offers by the time they graduate
- **Campus environment** —A rich, traditional residential campus atmosphere in scenic Logan, Utah
- **Lifetime networking** —Caring faculty, strong loyalty and traditions, and clubs and organizations designed to provide interaction between students, faculty and alumni that enhance the experience

Proven Results—In the past two years, three Utah State accounting students were recognized with the prestigious Elijah Watt Sells award which goes to the very top CPA candidates nationwide.

In 2012, out of 92,000 candidates taking the exam, only 39 received this award.

Simple Application Process

• Candidates apply online at USU’s School of Graduate Studies
• Graduate Management Admission Test (GMAT) waiver options available to USU undergraduates
• Out-of-state tuition waivers for qualifying transfer students
• Other application requirements may include completion of undergraduate accounting and business prerequisites, official transcripts, recommendation letters and demonstration of English language competency
• Visit huntsman.usu.edu/MAcc for specific details and qualifications

The PAcc is your best choice!

USU’s PAcc (Professional Accounting Program) is a five-year (150-credit hour) program designed for efficiency and flexibility.

Consider the advantages:

• Early application & admission during junior year
• GMAT waiver for eligible students
• Internship electives
• Begin program in any academic semester
• Concurrent awarding of undergraduate/graduate degrees facilitating tuition reduction and extending federal Pell Grant funding
