ECN 5150 (CI)

1 The economics major is a popular dual major for students, particularly in the College of Business. For example, finance majors often choose economics as a second major due to complementarities in subject matter and degree requirements.

2 The prelaw emphasis is popular as a dual major for students in political science or other programs outside of the College of Business.

3 The regular calculus series (Math 1210 and 1220) and Statistics 3000 are recommended for economics majors contemplating graduate studies in economics.
